EXPERIENCE

Setapps — Full Stack JavaScript Developer

NOVEMBER 2022 - PRESENT

Migrated the entire web app project from a custom React build with Webpack to Next.js framework, resulting in a 50% increase in traffic through SEO optimization, which made it easier to complete sales.

Magazine Bajo la Musica — React Developer

JANUARY 2022 - OCTOBER 2022

Built the website's UI/UX from scratch using React and ensured optimal performance. Additionally, I have developed other similar projects for my front-end portfolio. Feel free to take a look at: <https://hevedrios.com>

San Roque Co — Software Developer Intern

JULY 2021 - DECEMBER 2021

Internship provided by my university to create an employee management system. I did it with a web application using Flask-Python and SQLite3.

Dish Network — Tech Support Agent

FEBRUARY 2018 - FEBRUARY 2021

Applied strong soft skills and problem-solving, enabling me to work efficiently under pressure and consistently meet project deadlines.

EDUCATION

UTEL, Mexico — Computer Systems Engineer

FEBRUARY 2018 - FEBRUARY 2022

Proficient in programming languages including JavaScript, C++, Python, as well as MySQL, acquired through coursework and self-study.

PROJECTS

Setapps Startup — Web App Development

A joint project to put Agile Methodology into practice: <https://setapps.co>

SKILLS

Proficiency in JavaScript, HTML and CSS stack.

Proficiency with React/Next, their libraries, hooks, and testing with Jest.
